This licence application is to permit me to enter a roost and where required to use an endoscope to aid with the location, classification of roost type and occupying bat species. As a NPWS Conservation Ranger, I will occasionally need to assess bat roosts in domestic dwellings, trees and other structures such as bridges. I have held previous roost entry licences, whilst working in ecological consultancy, and currently hold a bat handling licence – C152-2021(2023 returns for this licence were submitted to WLU).

I attended a Bat Conservation Ireland endoscope usage course in March 2019. I have used an endoscope as per previous roost entry licences on various projects whilst engaged in ecological consultancy, prior to working for NPWS.

The actions permitted under this licence are for conservation purposes only. No negative effects on bats or their roosts will result.
